OUR VERY OWN UNIT OF COLD CHAIN MANAGEMENT

A cold chain is a temperature-controlled supply chain. An unbroken cold chain is an uninterrupted series of storage and distribution activities which maintain a given temperature range. It is used to help extend and ensure the shelf life of products such as fresh agricultural produce, seafood, frozen food, photographic film, chemicals and pharmaceutical drugs. Such products, during transport and when in transient storage, are called cool cargo. Unlike other goods or merchandise, cold chain goods are perishable and always en-route towards and use or destination, even when held temporarily in cold stores and hence commonly referred to as cargo during its entire logistics cycle.

Our services include air freight, sea shipment, project shipments, inland freight, custom clearance, warehousing, stuffing, picking, and crating. We are also specializing in handling high valued commodities through our sophisticated operation procedures. Premier Group, with global sourcing and supply-chain-management, creates valuable and innovative services through international logistic and forwarding services. We are dedicated to handling cargoes precisely, controlling your cost effectively and coordinating efficiently with clients and partners to solve any problems they encounter. Focusing on not only domestic customers but also global partners, Premier aims at creating a new way of expression in world logistics industry.

Air Freight
Premiere Group offers a wide range of airfreight services comprising both imports and exports. Our air freight teams are fully acquainted with the rules and regulations constraining the movement of cargo by air freight. On top of that, from our extensive network of overseas business partners, we are able to provide you with the vital information of the local requirements be it at the point of destination for your export shipments or origin for your import shipments. Also, we would oversee the entire process ensuring your shipments are being taken care of in a manner you wish for.

- Our air freight teams are able to offer a comprehensive range of services include:
- Consolidations
 - Charters
 - Door to Door (DDU and DDP)
 - Projects and Exhibition
 - Removal and Personal Effects
 - Temperature Sensitive Cargo
 - AOG
 - Hazardous Cargo
 - Customs Clearance
 - Transshipments
 - Marine Insurance
 - Heavy-lift and Special Equipment
 - Pharmaceuticals
 - Ships spares

Sea Freight
With an extensive network partnership around the world, the sea freight division of Premier Group has the flexibility of handling both single and complex shipment. We offer a wide-ranging of sea freight services and able to provide competitive rates and capacity. You can leave your cargoes safe in our hands, as we have logistic professionals to coordinate your sea shipments smoothly across the globe.

- Our sea freight teams are able to offer a wide-range of services includes:
- LCL and FCL
 - RORO
 - Custom Clearance
 - Transshipment
 - Marine Insurance
 - Heavy-lift & Special Equipment
 - Break-bulk
 - Tug and Barge
 - Door to Door (DDU & DDP)
 - Projects and Exhibitions
 - Removal and Personal Effects
 - Temperature Sensitive Cargo
 - Hazardous Cargo

Air and Sea Freight

- To save time and cost, Premier Group knows that it is essential to make use of different modes of transport to reach the destination. Thus, we do provide the following services:
- General and Temperature Sensitive Cargo
 - Warehousing and Distribution
 - Pick and Pack
 - Bonded and Non-Bonded Areas
 - Warehousing Management Systems and Automation
