NEWS UPDATES

PREMIERE LOGISTICS SHANGHAI has successfully acquired a company in HCMC/VIETNAM, VIETCOAST LOGISTICS CO., LTD

The main purpose for this acquisition is to achieve higher revenues and at the same time to bring down the costs. This strategy works when businesses as a group can realize substantial cost savings or achieve higher revenues than individual businesses can.

The combination of higher production from existing capacity and new capacity from recent entrants often generates more supply than demand.

Thus with this new expansion in HCMC/Vietnam, which was established in 1st September 2015, we are looking forward to more growth to and from this region

Contact details for Premiere Logistics HCMC:-

Office Manager: Ms. Le Thi Hoa

THE Singapore maritime community were advised to monitor the PSI level through the media as a haze has developed severe enough shut down local schools.

Singapore shuts schools, issues haze alert to maritime community

THE Singapore maritime community were advised to monitor the PSI level through the media as a haze has developed severe enough shut down local schools.

It was been reported that the average 24-hour PSI level in Singapore is above 300. This PSI level range is considered as hazardous.

Employers were advised to monitor their outdoor workers and follow guidelines provided by Ministry of Manpower (MOM), said the notice from the Maritime and Port Authority of Singapore.
